PROFILE

Self-taught data analyst, I turn raw data into concrete decisions. I cover the entire data chain: collection and cleaning, analysis, visualization (Power BI) and delivery as clear, actionable professional reports. I support SMEs, NGOs, merchants and institutions. Open to remote assignments (Africa, Europe, United States).

TECHNICAL SKILLS

- **Analysis & visualization:** Power BI (Power Query, DAX), advanced Excel
- **Programming & data:** Python (Pandas), SQL, R (tidyverse, ggplot2, Shiny)
- **AI applied to data:** AI-assisted analysis and automation (Claude, Claude Code)
- **Reporting:** professional PDF reports, decision-support dashboards
- **Tools & methods:** VS Code, Git / GitHub, data cleaning and structuring
- **Languages:** French (working language), English (intermediate)

PROJECTS & CASE STUDIES

Public Health Cameroon — Consultation Analysis	<i>R / tidyverse</i>
• Cleaning and analysis of 10,300 consultations (deliberately dirty data): surfaced an 18% medication stock-out rate and 65% uninsured patients. • Reproducible R pipeline (ggplot2, Shiny dashboard) and a 9-page bilingual report with prioritized recommendations.	
KinTop Fashion — Retail Sales Analysis	<i>Python / Pandas</i>
• Analysis of 500 orders across 5 stores: revenue, order completion rate, payment friction and product mix. • Delivered a 17-page professional report with 7 prioritized strategic recommendations.	
Health Center Network — Stock Management Analysis	<i>Excel / Python</i>
• Study of stock rotation and stockouts to optimize supply and reduce waste.	
HR Insights — HR Data Analysis	<i>SQL</i>
• Extraction and analysis of HR indicators via SQL queries, with concise reporting.	

PROFESSIONAL EXPERIENCE

Data Analyst — Freelance	<i>2026 – Present</i>
<i>MAHOUSSE DATA INSIGHTS — Cotonou, Benin</i> • Data cleaning, structuring and analysis for SMEs, NGOs and merchants. • Design of dashboards and decision-support reports.	
Teacher — Quantitative Sciences (Physics-Chemistry, Mathematics)	<i>2019 – Present</i>
<i>ANPE — Public education, Benin</i> • Teaching physics-chemistry and mathematics in public schools; simplifying complex concepts and quantitative reasoning — skills directly transferable to data analysis and reporting.	

EDUCATION

Master’s in Sectoral and Demographic Statistics	<i>In progress</i>
<i>ENEAM — National School of Applied Economics and Management</i>	
Professional Bachelor’s in Teaching — Physical & Chemical Sciences and Technology	<i>2017</i>
<i>École Normale Supérieure (ENS) de Natitingou — UNSTIM, Benin</i>	
Baccalaureate — Science stream (Series D)	<i>2013</i>
<i>CEG Lokogba — Benin</i>	
Certifications & further training • “Data Processing — Level 1” certificate — FORCE-N, Cheikh Hamidou Kane Digital University (Senegal), in partnership with the Mastercard Foundation, May 2026; Level 2 in progress. • “Claude for Data” program — completed, certificate issued July 2026. • Data Engineering program — started July 2026 (in progress).
